## Complete Health & Wellbeing Models 1 & 2 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how it all fits together, here are the first 2;

### Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom. *It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.*

*You job is to continually pay attention and nurture all 8 areas (i.e. keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.*

*If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.*

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

# Your 8 Health Buckets

(each has a continual, very small leak)

Let's delve further into each bucket and zone...

**The Tangible Zone** (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

**The Feel-Good Zone** (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

**The Connecting Zone** (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and

emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.

8. **Spiritual Health** ~ As the saying goes “for what profits a man if he gains the whole world and loses his soul?” Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

**Also**...to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

### Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the ‘Map of Consciousness,’ however we’re going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief and guilt etc, are at the lower end of the chart and don't feel so good to experience.

### ***Important distinction...***

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

The most important aspect of all ~ **the higher your resting vibration, the better you naturally feel!**

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

### ***Key note:***

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

### **Please burn this into your brain**

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊
