Quick Guide

The Base Models Explanation

This guide takes you through the explanations of all 3 base models that the 22 habit programme is based on.

Disclaimer

All the information and recommended action steps provided in this publication are with the sincerest intentions to genuinely help and inspire you to enhance your health and general wellbeing. It is the culmination of thousands of hours of research into published medical studies and health/wellness/success related publications. The authors accept no liability for the results of any actions the reader takes following the information contained within. We strongly advise you to do your own research prior to adopting any of the suggestions and consult a medical, health or competent professional if in doubt with any aspect of it.

Complete Health & Wellbeing Models 1, 2 & 3 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how it all fits together, here they are;

Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom. *It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.*

You job is to continually pay attention and nurture all 8 areas (i.e. keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.

If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

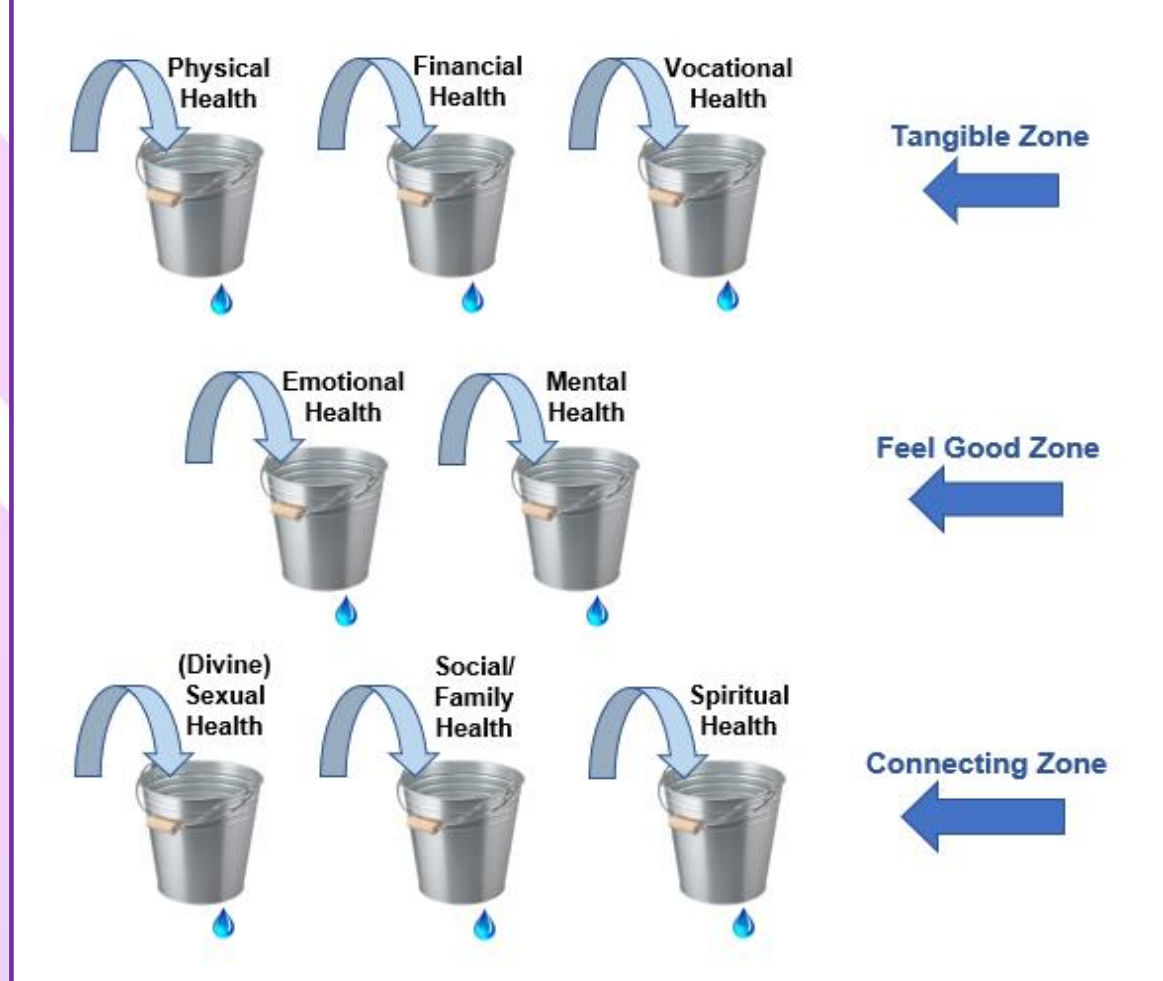

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

Your 8 Health Buckets

(each has a continual, very small leak)

Let's delve further into each bucket and zone...

The Tangible Zone (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

The Feel-Good Zone (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

The Connecting Zone (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and

emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.

8. **Spiritual Health** ~ As the saying goes “for what profits a man if he gains the whole world and loses his soul?” Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

Also...to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the ‘Map of Consciousness,’ however we’re going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief and guilt etc, are at the lower end of the chart and don't feel so good to experience.

Important distinction...

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

The most important aspect of all ~ **the higher your resting vibration, the better you naturally feel!**

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

Key note:

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

Please burn this into your brain

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊

Model 3 ~ Your Mind, Body, Spirit Connection Chart

As the advanced habits are designed for your mind and spirit, the following chart will help you fully understand how it all connects.

Once you fully grasp the core elements and how they interact, you'll have the blueprint and the know-how of how to solve any mental problems/issues and create anything you want 😊.

This is big stuff!

You and everybody else are born with all the faculties required, its understanding on a deep level how they work and then using the recommended tools and actions in the advanced habits to make them work harmoniously for you.

The bad news... these faculties can create misery in your life if just left to their own devices.

The good news... you can use these same faculties to clear any mental debris and create a life of absolute joy, fulfilment, and wonder, it is entirely up to you!

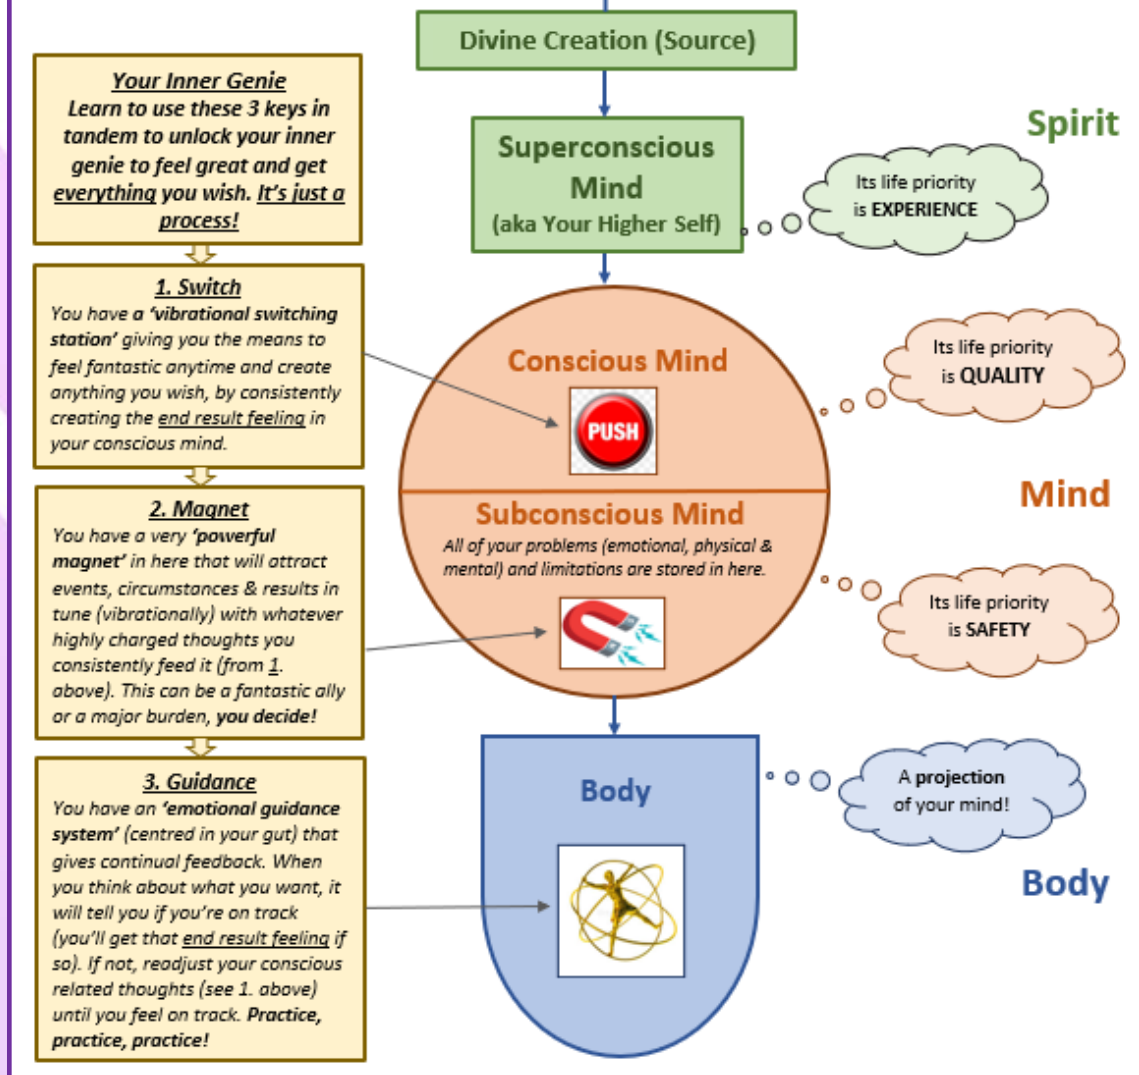

It just takes **understanding** and **discipline** until it becomes habitual.

Here's the chart...

Your Mind, Body, Spirit Connection

You have a body and a brain existing in the material world, a soul in the spiritual world and a mind in both, **you're a multi-dimensional being.**

Let's add all the details...

I'm going into a lot of detail here as this is **very important information to understand, as nobody ever teaches us this stuff.**

When you do understand the interactions between the mind, body and spirit, it's like having the **rule book** to get the best out of your life!

Divine creation (Source) ~ this invisible power has multiple names, some other common ones are divine intelligence, universal intelligence, divine consciousness, all that is, we prefer to refer to it as **source**.

This power is the fabric of the universe which pervades everything and thus everything originates from and returns to it, including us as humans.

We know from quantum mechanics that this divine power connects everything in the universe. Some people call it home as we are instinctively drawn back there on some level.

Superconscious Mind ~ this is more commonly referred to as 'your higher' self and is the connection between divine source and your subconscious mind. It is the programme designer for your life, it is very wise and knows what is best for you.

Its priority is **experience** of being a human as it knows you came here to experience the wonderful duality of the 3rd dimension to learn the lessons you agreed to (prior to incarnation), to evolve your soul.

It doesn't distinguish between good and bad circumstances the way you consciously do. It knows all circumstances, no matter how you perceive them, are ultimately beneficial for your experience and soul growth and that you asked for these experiences on some level prior to birth.

In its wisdom, it knows that if you weren't equipped with the faculties to deal with an experience, you wouldn't have it in the first place.

Conscious Mind ~ This is obviously where your awareness is (i.e. your thoughts and your will) whilst you go about your day making multiple decisions.

The key priority of your conscious mind is **quality** of life as you undoubtedly wish for the very best of circumstances and make choices as best you can, that will give you the best life within your general capability.

Your conscious minds can handle around 40 to 50 bits of information per second but most of the time its nearer 10 – 15 bits per second.

Subconscious Mind ~ 'This is the 'biggie' and where most of your problems and real power are stored!'

We're going deep...

Your subconscious mind is a vast storage base that will store everything your 5 senses consciously and unconsciously experience in your lifetime.

At birth it also holds information on your ancestors (going back several generations) and their issues which you brought in, through your DNA.

It has the knowledge/programming to efficiently operate and regulate all of your bodily systems (known as autonomic nervous system) 24 hours a day, every day, as it never sleeps. It processes around 11-15 million bits of data every second.

Apart from knowledge of your ancestors and the programmes/knowledge to efficiently operate and regulate all of your systems, it is otherwise, pretty much a blank slate at birth, ready to soak up **everything** (to use as/when/if required).

Then...

As you go through life, every thought, action and deed you ever experience, whether conscious of it or not, gets soaked up and stored in here too, let's call it **data**.

All the programming (over your lifetime) from your parents, teachers, bosses, co-workers, friends, partners, strangers, media, TV etc, all gets stored in here too.

Your belief systems, negative experiences and trauma's all get stored in here too. The more emotionally charged the experience, the bigger the imprint on your subconscious mind!

More emotionally charged = higher energy = bigger imprint!

Its priority for you is your **safety** and **security**. It basically runs the show based on the data it holds. Whatever the dominant thoughts and programmes you have soaked up; will generally dictate how you act and what you experience in your life, because...

All of this information constantly going in forms your **unconscious blueprint** from which all of your decisions and experiences stem from.

This bit is crucial to understand!

...you can only make decisions based on the **quality** of data you hold.

Metaphorically speaking, it operates similar to a computer meaning that the outer experience (how you consciously perceive it) is a reflection of the quality of the data in the operating system (your subconscious mind) that's running all your programmes.

Garbage In, Garbage Out (GIGO) as they say in computer terminology, but it's up to you ultimately, what goes in there.

Here's the (potential) problem...

Your mind with all its thoughts, creates corresponding emotions (feelings) in the body. The core feelings we all hold are the cumulative effect of thousands of thoughts.

As emotional beings, we become addicted to the chemically induced feeling (emotion) in our bodies. This is great if you are very positive and experience lots of nice emotions (habits 17 – 19 will help you achieve this 😊).

However, if the feelings are generally negative, most people tend to suppress these feelings by pushing them back down and then escape from them by using some means of diversion (food, drink, sex, drugs etc).

This suppressed energy accumulates over time and seeks expression through physical, emotional, and behavioural disorders.

In a nutshell...

Pretty much all of your problems (physical, emotional, and mental) originate from past trauma's, negative thought patterns and associated suppressed emotions (feelings) stored in your subconscious mind.

All this stored information plus the ongoing information you absorb from your environment will affect your beliefs which will affect how you think, feel, and perceive reality.

Hard wiring...

If you run a certain thought through your mind enough times, let's say anxiety, you hard wire the associated emotional feeling into your cells over time and then become chemically addicted to that feeling (even though it's **not** a good feeling).

Your emotions are the end product of past experiences, but you **can't** create a new future holding onto the emotions of the past.

All of your suffering is caused by your thoughts.

So negative thoughts create associated low vibrational emotions which become hard wired into your body and you become addicted without realising (you subconsciously create circumstances to get more of it), even though it is something you don't want.

If you don't know how to consciously break this negative thought/emotion cycle, the thoughts will continue the suffering.

The good news...

You can release and heal these underlying issues/problems by working with your subconscious, habits 13 and 14 cover this 😊.

Then you can rewire your brain with positively charged thoughts and hard wire associated high vibrational emotions that make you feel really good, habits 17 – 19 cover this 😊.

You then can become addicted to the feel-good emotions and **that's what you want!**

This is very big stuff, and you'll see its value as we progress through the habits.

Let's just touch on the mechanics for a second...

IMPORTANT I want to make a clear distinction, so you understand how issues and problems are stored in your subconscious mind.

There are universal laws which govern everything, one of these is called 'The Law of Cause & Effect' which I'm sure you've heard of. It states that every effect in the universe has an underlying cause that created it.

So, when you experience any physical, emotional, or mental issue/problem in your life, you are experiencing an **effect**. If this was caused by obvious external source (e.g., you got stung by a bee on the arm and it swelled up) you know what the cause is.

However, if you are experiencing an issue/problem that has no obvious cause, it's almost certain the underlying cause, is suppressed emotional energy from the repeated thought patterns (based on data/programming) in your subconscious, seeking expression.

When I say not obvious, what I mean is that it's not obvious as to the cause, based on the effect that you're experiencing. Examples;

... **You are feeling down and depressed** but there's no logical reason as your life is reasonably comfortable by normal standards.

... **You feel fatigued most of the time**, but your life is pretty normal.

... **You have aching in your joints**, but you don't really do anything excessive to create this.

... **You are very irritable with big mood swings** for no obvious reason.

Many major ailments/diseases such as cancers, autoimmune diseases are generally manifestations resulting from a combination of poor health choices (or lack of awareness) and suppressed emotional energy from negative data programmes, repeatedly playing in the subconscious over a period of time.

I don't want to get into a medical debate but do want you to understand two key aspects;

- i) issues like cancers and diseases are effects.
- ii) the medical world pretty much only deals with treating effects as that's the way it generally operates.

Now of course, medical expertise is very important indeed. However, we're going to give you the preventative knowledge and the tools to continually input positive subconscious data/programming and most importantly, **release** any negatively charged emotional energy, before it can create any issues.

Prevention is better than the cure, as they say!

Its ultimately about mental freedom so you feel lighter and happier 😊.

The grand illusion (that will blow your mind!)

Final piece of the subconscious element...

There is no **'out there'**, everything comes from within you!

Quantum physicists will say that you are both the observer and the observed. In other words, when you believe you are looking at the outside world, you are actually observing yourself 😊.

Crazy, right? Here's how...

The cerebral cortex in your brain interprets the input from your 5 senses.

Your 5 senses turn all sensory input into electrical impulses for the neocortex to decode and interpret.

So, your brain (neocortex) is observing the electrical impulses that are also in your brain. **It's all inside you** 😊.

There is **no** outside, what you perceive as reality is merely your brain interpreting the electrical impulses (also inside your brain) from your senses.

You create your own reality from inside you, based on your thoughts, beliefs and perceptions, that are all stored in your subconscious mind!

...And when you understand how to change something you don't want and how to attract something you do want, you hold all **the keys to the kingdom** 😊!

It's all in the advanced habits.

Change your programming (that's what we're going to help you do), **you change your life!**

Body ~ This one is simple (you'll be pleased to know 😊).

As you will have seen with habit 2 (earthing), your body is naturally in tune with mother earth as it is biologically grown following a natural seed/egg fertilisation process.

The body comes into its own existence at birth in a state of very high vibration (hence why we're all naturally drawn to babies as there is a pureness in their energy field). The body is newly grown through the miracle of nature and the soul has recently entered into the body from a higher (spirit) dimension, ready to begin a new (life) journey in the 3rd dimension.

It has its own DNA blueprint which dictates what you look like, your size, shape, characteristics, and personality.

Now you're ready to make sense of and explore the world. Your mind makes the decisions (both consciously or unconsciously), and your body follows.

Then as you go through life and start interacting with the world, all the data from your experiences start to imprint on subconscious mind, which subsequently begins to shape your world and your perception of it.

Your body is both an instrument of your conscious (it carries out your commands) and a projection of your subconscious mind as the way you act, feel, communicate, look, dress etc, is a reflection of it.

The 3 keys to Your Inner Genie – (this is the life-changing bit 😊)

Although your subconscious mind can take you to some dark places if left unchecked, you also have an inner genie that can make all of your dreams come true, but more importantly, make you feel happy and fulfilled as a **default setting** 😊.

As previously mentioned, the same faculties (Your Inner Genie) that creates all your issues/problems, also makes your dreams come true. The only difference is **how you programme it**, to get what you want!

Are you ready? This is powerful!

The 3 keys to Your Inner Genie use basic metaphors to simplify the process. Here goes (in a logical order for understanding purposes)...

Key 2 ~ **The Magnet** (in your subconscious mind)

Your subconscious mind can be likened to a powerful **magnet**. In the subconscious section in the previous pages, we discussed how highly energised negative suppressed emotions seek outwardly expression that attract negative circumstances (problems and issues etc) as that's the vibration it is being **'charged up'** with.

The magnet can also be imbued with highly charged positive emotional energy which then attracts very positive circumstances and events.

Think of your subconscious mind as just a powerful magnet waiting for your emotional input to charge it, so it can attract to you, **corresponding events and circumstances that are in vibrational alignment** with the emotional energy you consistently give it.

Its ready and waiting to give you what you wish, you just need to emotionally charge it accordingly, through your conscious thoughts (key 1)!

Key 1 ~ **The Switch** (in your conscious mind)

You are emitting a vibrational energy at all times, as you already know. Your conscious mind has a vibrational switch in it that enables you to consciously change your vibration in a split second by changing your thoughts. Let me give you a couple of examples...

i) Imagine you're having a really bad day at work and it feels like the world is against you, you feel miserable. Your partner then rings you and says "great news, I just checked last night's lottery numbers and we've won £111,000.00 😊"

ii) You've just finished packing for your annual holiday, the whole family are really excited, the taxi is picking you in an hour and then the phone rings, It's the travel operator calling to say they've just gone into administration and have been forced to cancel all holidays with immediate effect!

In both scenarios, what happened to your vibration?

In scenario i) you went from a low energy vibration to an ecstatic vibration in an instant.

In scenario ii) you went from an excited high vibration to a despondent low vibration in an instant.

As you consciously processed the information in both scenarios, you instinctively switched your vibration according to your perception of events.

The key element here is that **you can consciously choose and change your vibration by simply changing your thoughts.**

So, as you have a powerful magnet (your subconscious) that will attract whatever you emotionally charge it with, it would make absolute sense, to charge it with the positive emotion of **what you want!**

The **switch**, like the magnet is metaphorical, it signifies you consciously switching on the right emotional vibration to attract whatever it is you want.

We'll cover how to do this within the advanced habits.

Key 3 ~ **Emotional Guidance System** (in your gut)

This is simply the emotional feeling in your body, which is generally strongest in the gut.

To imbue the magnet with highly charged emotional energy, you have to use your feelings to find the sweet spot.

So, you consciously choose circumstances you really want, so just the mere thought of them makes you very excited indeed (you feel highly charged positive emotions). You basically tweak the thoughts as necessary to really dial up the emotions, so you feel absolutely wonderful as though you already have it.

That's it, you're programming the magnet, so it starts to emit that excited frequency to attract to you events and circumstances in line with what you want, to bring it to you.

You need to do this continually (i.e. think about it all the time or as often as you remember), to keep the magnet charged up with highly emotional positive energy.

You are basically turning the emotional feeling (of having what you want) it into your default setting, until you get what you want.

If you're on track each time you think about it, you should get the same original feelings in your gut, this confirms if you're still on track.

If the feelings are not quite hitting the spot, you need to consciously tweak your thoughts to reignite the original excited feeling. You do this continually.

Your feelings are your **emotional guidance system.**

When you think about what you want, your feelings will tell you if you're on track or not, so you can adjust, as necessary to keep that powerfully charged emotional feeling.

Summary

The 3 keys of **Your Inner Genie** are what is known as the Law of Attraction.

The magnet (key 2) works automatically with whatever emotional vibration you feed it; you don't need to do anything with it.

You only have to consciously decide what you want and how it will make you feel when you have it (key 1) and then use your emotional guidance system (key 3) to check if you're on track and adjust accordingly, until you have it.

All you are doing is...

Using your conscious mind to decide on what you want and place your focus on a scenario where you already have it (key 1) and then paying attention to the corresponding feelings in your gut (key 3) to make sure it feels wonderful (as though you already have it).

Whilst doing this process, you simply tweak the experience (as necessary) in your conscious to really tune up the feeling, so it feels amazing, as though you already have it.

That's it, you don't need to do anything with key 2 as that will work automatically based on the electromagnetic (electro = thought, magnetic = feeling) vibration it is receiving from the combination of keys 1 & 3.

The advanced habits are designed to naturally help you use these 3 keys 😊.

The Law of Attraction module will walk you through this process in detail.
