## Introduction

### With our compliments

This complimentary guide contains habit 10 (of 22) from our Vibrant Health Programme.

The full plan is the culmination of thousands of hours of research, condensed into an easy-to-use format of simple daily habits.

Habit **10** is entitled ~ **Quality Nutrition.**

**This is simply 'high grade' fuel to nourish your body.**

If your body could communicate directly with you about its vital needs to maximise your potential for vibrant health and wellbeing, this is the habit that takes care of the types of foods required, to meet those very important needs.

**Nature is the key!**

We sincerely hope you get lots of value from this information and start using it immediately.

On behalf of myself and David, we wish you the very best of future health & happiness,

*Stephen Kirkbride*

Health & Wellness Mentor, Nutritionist, Healer,  
Psychic Medium and Numerologist.

This is **David** btw 😊

## Understanding What You Are?

**This section is crucial to help you get the most from the programme by understanding what you really are (energetically).**

The complimentary habit information starts on page 15; however, we highly recommend you read the preliminary sections (pages 4 – 13) to fully understand the 'bigger health picture' to get the most out of this guide.

### Spiritual beings

You may or may not know that you, me, and every other human on the planet are magnificent spiritual beings having a series of human experiences.

### Why, you may ask?

In a phrase... '**soul evolution.**' You like everyone else, chose to be the person you are, along with the path you are currently on in this lifetime, as you knew it would present you with the lessons and challenges that your soul needs to allow it to evolve further.

Most people at this point usually say to me *"If I had a choice, I'm pretty sure I wouldn't have chosen this body and this life!"* 😊

I can assure you that you and everyone else, consciously chose (whilst in the spiritual realm) their current life before they were born. Now unless you are drawn towards the study of spiritual or philosophical pursuits, the chances are you could easily think life is just random and a one off.

To help you put things into perspective, here's a brilliant bit of wisdom entitled 'the rules for being human'...

**1. You will receive a body.**

*You may like it or hate it, but it will be yours for life.*

**2. You will learn lessons.**

*Life is a constant learning experience and everyday provides opportunities to learn lessons.*

**3. There are no mistakes, only lessons.**

*Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.*

**4. A lesson is repeated until learned.**

*A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons? They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.*

**5. Learning lessons does not end.**

*While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you've been accustomed to.*

**6. "There" is no better than "here."**

*When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."*

**7. Others are merely mirrors of you.**

*You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.*

**8. What you make of your life is up to you.**

*You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.*

**9. Life is exactly what you think it is.**

*You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.*

**10. Your answers lie inside you.**

*The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.*

**11. You will likely forget all this...but you can remember it whenever you want 😊.**

These universal truths apply to every single human being and are a wonderful little guidance system to keep reminding us of who we are and how it (life) works.

We have also added it to the annex at the end as a single page if you wanted to print it off and have it as a regular reminder of the rules of life!

Let's go deeper...

**Everything is just energy**

Here's a little bit of science which is also important to understand (to lead us into the health stuff); everything in the universe is just energy vibrating at a certain frequency and that includes us as human beings.

Although the body you are sat in, appears to be physical flesh and blood (we are actually 70% - 75% water), if you viewed it under a powerful enough microscope you would see at a certain level, you are simply trillions of atoms vibrating.

Away from the microscope, you appear to be solid. This is the same with any seemingly solid object, it too is just vibrating atoms that give the appearance of solidity to our senses.

## **We are all born as high vibrational beings**

When we are born, we have the pureness and high vibrations of a new body and soul just beginning its journey. This is the beauty of nature and evolution at work and if you were to measure the frequency, it would be very high indeed.

This is why we are all energetically drawn to new-born babies and small children because they are in a state of high vibration. It is the same for young animals, think puppies or kittens, they're adorable.

You could say every birth is a miracle of nature as each new-born has gone through a natural gestation and incubation period before entering the world independently.

## **Homeostasis**

This high vibrational, optimal state is known as homeostasis, it is the default healthy setting of the body. As long as we have decent habits and generally nourish the body, it should stay in the high vibrational state of homeostasis.

Unfortunately, the vibrational state starts to diminish if we're not careful 😞.

## **The PROBLEM....**

***Modern day life is slowly poisoning us (if we allow it)!***

Whether we like it or not, modern life in the western world particularly, is not conducive to good health, we're negatively bombarded from many directions which starts to lower our vibration and vitality.

The list is long but here are the common ones:

- Processed food
- Food additives (MSG, High fructose corn syrup, aspartame)
- EMF radiation (Wi-Fi, smart metres, devices)
- Air pollution
- Anxiety/Stress/Fear/Negativity/Guilt/Shame
- Vaccinations
- Prescription medication

Each element above has the effect of lowering your vibration and subsequently your health and vitality.

Making a conscious effort to reduce these effects and adopt habits to raise your vibration is the key. More importantly, all the good habits we're suggesting you do, will help do this for you 😊.

## You could also join a tribe for this!

If we all lived in the wild like indigenous people do, we wouldn't need to give health a second thought as we'd instinctively live-in harmony with our surroundings. We'd only ingest natural foods and be away from vibrational lowering foods, devices, and environments.

Tribes people just don't suffer from every day stress/fear/anxiety...hmmm!

### Solution

As we're living in the modern world with many things lowering our natural vibration (which has the potential to lead to multiple potential health problems), we can mitigate this by adopting the right actions which naturally raise our vibration and health.

And we simply do this until these actions become fixed habits, then it's plain sailing 😊.

## Adopting the Right Mindset

Good health is **always** your number 1 priority in life!

### Here's why....

When David and I are giving health presentations, we ask the audience if they could have anything they want (and money is no object), what would they choose?

We usually get replies such as, a large mansion, a super yacht, huge log cabin in the woods, handsome rich partner etc.

We then point out that to fully enjoy any of it, the most important thing of all is to have good health. Of course, you can still have some enjoyment whilst in poor health but to fully enjoy anything in life, being in good health is essential and why it is your number 1 goal in life.

When your health is good, you feel good, your life flows much easier  
and everything is more enjoyable 😊

As my spirit guide Qual says, **“What does your wealth look like, without your health?”** to emphasise the importance of prioritising your health.

### Formula 1 racing car analogy!

I want you to start thinking of your body as though you were operating a high-performance formula 1 racing car.

- To get the best performance out of it you would only put in quality petrol, oils, and lubricants.
- You would make sure you understood how to get the best out of it and drive it accordingly.
- You would only drive it in suitable environments and take special care of it to make sure it always operates with a high performance. You would look after it!

As busy humans, we tend to put any old petrol in it (junk food), never really bother to read the manual to fully understand how it works (life is far too busy!) and we don't really pay much attention to it, until something starts to go wrong (Dr will fix it with a prescription!).

That tends to be the reality of modern life for a lot of people 😞!

### Let's talk about FEELING GOOD 😊

We've established that good health is always your number 1 priority in life.

A natural consequence of good general health and wellbeing is **feeling good**. When you feel good, positive, and happy, your vibration rises, and life becomes much easier and that's what this whole programme is about.

Each habit will incrementally raise the vibration of your body each time you do it. You will feel good each time you do a recommended action, sometimes its subtle, sometimes it's obvious, sometimes it's exhilarating, as you'll see 😊.

There'll be a combination of physical, emotional, and psychological wellbeing benefits. The more you do them, the better it is for your general health and the better you'll feel good.

## Complete Health & Wellbeing Models 1 & 2 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how it all fits together, here are the first 2;

### Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom.

*It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.*

*Your job is to continually pay attention and nurture all 8 areas (i.e. keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.*

*If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.*

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

Let's delve further into each bucket and zone...

**The Tangible Zone** (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

**The Feel-Good Zone** (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

**The Connecting Zone** (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.
8. **Spiritual Health** ~ As the saying goes "for what profits a man if he gains the whole world and loses his soul?" Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

**Also...** to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

### Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the 'Map of Consciousness,' however we're going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief, and guilt etc, are at the lower end of the chart and don't feel so good to experience.

### ***Important distinction...***

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

**The most important aspect of all ~ the higher your resting vibration, the better you naturally feel!**

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

**This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.**

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

### **Key note:**

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

### **Please burn this into your brain**

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊

## **How to Get the Most from this Habit**

David and I created this programme as a 2-step process to learn each habit;

1. First step, **learning**: the information on the habit is to educate you on the importance to your health and **why** you should adopt it.
2. Second step, **doing**: you then know exactly **what** and **how** to do it, until it becomes a deeply ingrained habit.

Hopefully, you'll feel inspired to do the recommended actions until the habit becomes fixed and subsequently automatic for you 😊.

### **It just takes a bit of discipline first**

The best definition of discipline I have heard is 'giving yourself a command and following it.'

The difference between discipline and habit is this;

**Discipline** is making decisions and taking actions using your **conscious mind**.

**Habit** is carrying out actions using your **subconscious mind** as you no longer have to think about it, you just do it.

So, once you have learned and understood the benefits of each individual habit, you just need a bit of discipline to carry them out daily until they become a fixed habit.

...and voila 😊!

## Habits

**We are all creatures of habit** as this is how the unconscious mind operates when we repeat an action enough times.

Scientifically speaking, every single thought or action creates an electrical impulse across the neural pathways of your brain to create what are known as synapses. By repeating specific thoughts or actions you strengthen the neural pathways/synapses until they reach a point where conscious attention is no longer required. It then becomes stored in your subconscious mind and body, as a fixed habit.

If you repeat an action long enough the brain will naturally and unconsciously want to keep doing it and that is the plan!

### **Only 66 days needed!**

There is a lot of talk about a habit becoming fixed after just 21 days, but recent scientific studies show it takes 66 days to fully ingrain a habit subconsciously.

David and I do 'earthing' (habit No 2) every single morning whatever the weather, we have done it for that long (several years) it would feel weird not doing it.

The first week or two is where the most discipline is required. After 66 days, you will have done it that many times, it will feel like the most natural thing in the world. It will be like getting dressed or brushing your teeth, you don't have to think about it, you just do it.

**So, are you ready to get going?**

## Habit No 10 ~ Quality Nutrition

**“Rule of thumb ~ If you can grow it or kill it, consider it is in tune with your body!”**

### Quality Nutrition

For a balanced diet, we obviously need to eat to fuel our body. What we eat has a significant effect on our health, **“You are what you eat”** as the saying goes.

The body has **7 essential requirements** ~ nutrients, vitamins, minerals, proteins, fats, water, and carbohydrates to function efficiently.

We all know that if we consistently eat too much of the wrong stuff and not give the body what it needs, we'll likely gain weight, feel sluggish and have far less energy.

If we do it for too long, our health is likely to suffer leading to ailments and disease.

By the way, there's nothing wrong with the occasional lovely juicy pizza, a nice muffin, or some cream cakes. Moderation is the key here 😊.

### Let's think in terms of fuel

Do remember the Formula 1 racing analogy I gave you back on page 8?

If you continually think of food in terms of fuelling your body with essential requirements for optimal performance, it will change how you view food.

Do you remember the paragraph about energy on page 6 (I'm testing you now 😊)?

**Let's recap** ~ everything in the universe is energy, it's all made of vibrating atoms, the only difference between any 2 items/objects is the combination of atoms.

And, like attracts like on a vibrational level. In other words, similar vibrating items/objects attract each other as they are in vibrational harmony.

So, if we look at the human body which is made up of living tissue and around 70% - 75% water, the best fuel (food) we could give it, is **live** foods that are high in water content.

Because...live food with high water content is **in vibrational harmony with your body!**

## **Live foods**

In our health talks, I place food in 2 categories, living or dead.

Live food is basically something that was living before being harvested/killed, such as cauliflower, tomato, carrot, chicken etc. They are pulsing with enzymes.

Dead foods are essentially processed foods such as biscuits, cakes, potato chips.

The difference is, if you leave live food it deteriorates (starts dying) and becomes unfit for consumption within a few days. Whereas dead food (if left in a packet) will often look the same weeks later.

The ingredients in dead foods have been changed from their natural state into a processed state.

However, when you eat live foods, your body thrives as they are full of the essentials that your body needs for nourishment and healthy functioning.

## **Balance is the key**

If you always think in terms of fuelling your body for optimal performance, you should naturally gravitate towards live foods.

If you currently eat a lot of dead foods, start making a few tweaks and gradually introduce more live foods.

Of course, remember to eat plenty of the live/fermented foods mentioned in habit 7 as they are teaming with good bacteria that your gut will love.

You don't need to go crazy and switch completely to live foods (unless you want to), the key is to make your general diet predominantly live foods and reduce the amount of processed (dead) foods.

## **Alkaline diet (very important)**

The pH scale ranges from 1 (highly acidic) to 14 (highly alkaline), while your body's pH usually hovers between 7.35 and 7.4.

According to Nobel prize winner Dr Otto Warburg "No disease, including cancer can exist in an alkaline environment".

Unfortunately, most of the foods that people consume today are full of sugar, preservatives, and genetically modified organisms. These all contribute to acidity in the body which if left unchecked, greatly increases the potential for ill health and disease.

The most alkaline foods are vegetables, as well as some fruits, grains, nuts, and alkaline water. Helping your body neutralize some of its acidity is crucial for maintaining your overall health.

### **Common acidic foods**

Processed foods

Refined Grains

Meats

Carbonated drinks (includes all energy drinks)

Flavoured coffee (double whammy – caffeine & refined sugar)

Artificial sweeteners

Mechanically separated meats (gizzards, bowels, guts –treated with ammonia)

### **High alkaline foods**

Lemons

Watermelons, Mango, Papaya (rich in antioxidants)

Asparagus (rich in amino acids)

Cayenne Pepper (good for hormones)

Grape, Banana, Berries (rich in antioxidants)

Pineapple (rich in fibre, making you feel fuller)

Fruit & Veg (pretty much all are high in alkaline)

Apple Cider Vinegar (not really a food, good for adding to drinks like smoothies)

Notice a direct correlation between **live foods** and **alkaline foods!**

**Now we all love the odd acidic food, I certainly do!** As always, the key is about getting a good balance to make sure you are getting plenty of alkaline foods in your diet.

My personal diet is around 70% alkaline and 30% acid.

### **Brain foods**

Here are a few foods that are proven to be good for helping your brain to function (among other things) and should be considered as part of a healthy balanced diet;

**Dark chocolate** ~ with at least 70% cocoa content, (so swap milk chocolate for dark). The cacao flavonoids are said to encourage neuron and blood vessel growth in parts of the brain associated with memory and learning.

**Turmeric** ~ this is a bit of a super-food, it helps digest fats, maintains healthy blood sugar, and benefits the healthy functioning of the brain.

**Curcumin** ~ it has been proven to support working memory, calmness, and satisfaction in coping with mental strain.

**Omega 3's** ~ oily fish (mackerel, sardines, salmon) is a good source of omega 3 along with (vegetarian friendly) flax seed and chia seeds. All of these helps build membranes around each cell in the body. Studies have found that high levels of omega 3 increases blood flow to the brain.

**Berries** ~ (all berries including blueberries, strawberries, blackberries) like dark chocolate, many berries contain flavonoid antioxidants which help reduce inflammation and oxidative stress. Other positive effects include improved communication between brain cells, increased plasticity which helps brain cells form new connections boosting memory and learning.

**Eggs** ~ they are a good source of vitamin B6, vitamin B12 and folic acid. Recent research suggests these vitamins may help prevent brain shrinkage and delay cognitive decline.

**Peanuts** ~ they have excellent nutritional qualities. They contain plenty of unsaturated fat and protein to keep your energy levels up throughout the day. They also contain high levels of vitamin E and resveratrol. Resveratrol is an antioxidant which according to research, can help prevent cancers, inflammation and neurological diseases including Parkinson's and Alzheimer's.

## Nutritional Supplements

A good balanced diet including plenty of the healthy foods discussed in habit 7 and above, should give your body the majority of what it needs to function well and keep you healthy.

To enhance this even further, here is a list of recommended natural supplements (click on each hyperlink for more info) for you to consider;

**[Mineral Tissue Salts](#)** ~ these support the general health and optimal function of the body by regulating muscular and cellular function, blood pressure, digestion, detoxification, nutrient absorption, and fluid balance.

**[Himalayan Rock Salt](#)** ~ Excellent for electrolyte balance and supports general health and functioning of the body. It is known to be the cleanest in the world – also has healthful and therapeutic properties that made it beneficial for use in bath soaks and body scrubs, to name a few applications.

**[Organic Inulin](#)** ~ A high fibre pre-biotic made from Jerusalem Artichoke. Great for digestive health, I personally add it to smoothies.

**[Chia Seeds](#)** ~ A wonderful super food, here's why; those little seeds have everything from nutrients, vitamins, minerals, protein, antioxidants to omega 3 fats, fibre, and carbohydrates. Pretty much everything you need in each seed 😊.

**[Ground Almonds](#)** ~ Full of nutrients, antioxidants and Vitamin E, another food with a multitude of health benefits.

**[Apple Cider Vinegar](#)** ~ Has a very good alkalising effect on the body and a multitude of health properties from antioxidant effects and anti-bacterial properties. May also help lower blood sugar levels and aid weight loss.

**[Flax Seed](#)** ~ Another super food full of nutrients, protein, fibre, and omega 3 fats with a multitude of health properties.

**[Coconut Oil \(cold pressed\)](#)** ~ A super-duper food, this one has numerous health properties and uses like protecting and moisturising your skin, a great cooking oil, toothpaste alternative, great for healing cuts.... the list just goes on, it has multiple health benefits when ingested and also multiple benefits externally. It is now common on every supermarket shelf 😊.

**Vitamin C** ~ If you are feeling run down or have cold or flu like symptoms, this powerful antioxidant will help boost your immune system. Multiple health benefits.

### **Always drink plenty of water (habit 1)**

I would consider avoiding or cutting down on carbonated, sports and energy drinks as these lead to dehydration which cause your body to become acidic.

Drinking normal water and gel foods is great for your body's pH value. Becoming dehydrated can lead to constipation as water is pulled from your bowels to critical areas like your brain, this causes your bowel to dry out and constipation ensues.

Also, movement (just fidgeting) or mild exercise is good for your body as it engages your bodies systems. If you can raise a sweat, you are also helping to lower the acidic level of your body, as body sweat is acidic.

**Avoid** or cut down as much as possible, diet carbonated drinks and artificial sweeteners. Both contain a substance called aspartame which is highly toxic.

Instead of diet drinks, drink regular water if you can, perhaps add some fruit to flavour it. For sweeteners in hot drinks, try adding organic honey or Stevia.

### **Final word**

Think like a caveman, if you can grow it or kill it, it is in harmonious vibration with your natural state.

# The Rules for Being Human

## 1. You will receive a body.

You may like it or hate it, but it will be yours for life.

## 2. You will learn lessons.

Life is a constant learning experience and everyday provides opportunities to learn lessons.

## 3. There are no mistakes, only lessons.

Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.

## 4. A lesson is repeated until learned.

A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons. They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.

## 5. Learning lessons does not end.

While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you be accustomed to.

## 6. "There" is no better than "here."

When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."

## 7. Others are merely mirrors of you.

You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.

## 8. What you make of your life is up to you.

You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.

## 9. Life is exactly what you think it is.

You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.

## 10. Your answers lie inside you.

The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.

## 11. You will likely forget all this...but you can remember it whenever you want 😊.
