Understanding What You Are?

This section is crucial to help you get the most from the programme by understanding what you really are (energetically).

The complimentary habit information starts on page 15; however, we highly recommend you read the preliminary sections (pages 4 – 13) to fully understand the 'bigger health picture' to get the most out of this guide.

Spiritual beings

You may or may not know that you, me, and every other human on the planet are magnificent spiritual beings having a series of human experiences.

Why, you may ask?

In a phrase... '**soul evolution**'. You like everyone else, chose to be the person you are, along with the path you are currently on in this lifetime, as you knew it would present you with the lessons and challenges that your soul needs to allow it to evolve further.

Most people at this point usually say to me *"If I had a choice, I'm pretty sure I wouldn't have chosen this body and this life!"* 😊

I can assure you that you and everyone else, consciously chose (whilst in the spiritual realm) their current life before they were born. Now unless you are drawn towards the study of spiritual or philosophical pursuits, the chances are you could easily think life is just random and a one off.

To help you put things into perspective, here's a brilliant bit of wisdom entitled 'the rules for being human'...

1. You will receive a body.

You may like it or hate it, but it will be yours for life.

2. You will learn lessons.

Life is a constant learning experience and everyday provides opportunities to learn lessons.

3. There are no mistakes, only lessons.

Your development towards wisdom is a process of experimentation, trial, and error.

Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.

4. A lesson is repeated until learned.

A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons? They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.

5. Learning lessons does not end.

While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you've been accustomed to.

6. "There" is no better than "here."

When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."

7. Others are merely mirrors of you.

You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.

8. What you make of your life is up to you.

You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.

9. Life is exactly what you think it is.

You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.

10. Your answers lie inside you.

The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.

11. You will likely forget all this...but you can remember it whenever you want 😊.

These universal truths apply to every single human being and are a wonderful little guidance system to keep reminding us of who we are and how it (life) works.

We have also added it to the annex at the end as a single page if you wanted to print it off and have it as a regular reminder of the rules of life!

Let's go deeper...

Everything is just energy

Here's a little bit of science which is also important to understand (to lead us into the health stuff); everything in the universe is just energy vibrating at a certain frequency and that includes us as human beings.

Although the body you are sat in, appears to be physical flesh and blood (we are actually 70% - 75% water), if you viewed it under a powerful enough microscope you would see at a certain level, you are simply trillions of atoms vibrating.

Away from the microscope, you appear to be solid. This is the same with any seemingly solid object, it too is just vibrating atoms that give the appearance of solidity to our senses.

We are all born as high vibrational beings

When we are born, we have the pureness and high vibrations of a new body and soul just beginning its journey. This is the beauty of nature and evolution at work and if you were to measure the frequency, it would be very high indeed.

This is why we are all energetically drawn to new-born babies and small children because they are in a state of high vibration. It is the same for young animals, think puppies or kittens, they're adorable.

You could say every birth is a miracle of nature as each new-born has gone through a natural gestation and incubation period before entering the world independently.

Homeostasis

This high vibrational, optimal state is known as homeostasis, it is the default healthy setting of the body. As long as we have decent habits and generally nourish the body, it should stay in the high vibrational state of homeostasis.

Unfortunately, the vibrational state starts to diminish if we're not careful 😞.

The PROBLEM....

Modern day life is slowly poisoning us (if we allow it)!

Whether we like it or not, modern life in the western world particularly, is not conducive to good health, we're negatively bombarded from many directions which starts to lower our vibration and vitality.

The list is long but here are the common ones:

- Processed food
- Food additives (MSG, High fructose corn syrup, aspartame)
- EMF radiation (Wi-Fi, smart metres, devices)
- Air pollution
- Anxiety/Stress/Fear/Negativity/Guilt/Shame
- Vaccinations
- Prescription medication

Each element above has the effect of lowering your vibration and subsequently your health and vitality.

Making a conscious effort to reduce these effects and adopt habits to raise your vibration is the key. More importantly, all the good habits we're suggesting you do, will help do this for you 😊.

You could also join a tribe for this!

If we all lived in the wild like indigenous people do, we wouldn't need to give health a second thought as we'd instinctively live-in harmony with our surroundings. We'd only ingest natural foods and be away from vibrational lowering foods, devices, and environments.

Tribes people just don't suffer from every day stress/fear/anxiety...hmmm!

Solution

As we're living in the modern world with many things lowering our natural vibration (which has the potential to lead to multiple potential health problems), we can mitigate this by adopting the right actions which naturally raise our vibration and health.

And we simply do this until these actions become fixed habits, then it's plain sailing 😊.

Adopting the Right Mindset

Good health is **always** your number 1 priority in life!

Here's why....

When David and I are giving health presentations, we ask the audience if they could have anything they want (and money is no object), what would they choose?

We usually get replies such as, a large mansion, a super yacht, huge log cabin in the woods, handsome rich partner etc.

We then point out that to fully enjoy any of it, the most important thing of all is to have good health. Of course, you can still have some enjoyment whilst in poor health but to fully enjoy anything in life, being in good health is essential and why it is your number 1 goal in life.

When your health is good, you feel good, your life flows much easier
and everything is more enjoyable 😊

As my spirit guide Qual says, **“What does your wealth look like, without your health?”** to emphasise the importance of prioritising your health.

Formula 1 racing car analogy!

I want you to start thinking of your body as though you were operating a high-performance formula 1 racing car.

- To get the best performance out of it you would only put in quality petrol, oils, and lubricants.
- You would make sure you understood how to get the best out of it and drive it accordingly.
- You would only drive it in suitable environments and take special care of it to make sure it always operates with a high performance. You would look after it!

As busy humans, we tend to put any old petrol in it (junk food), never really bother to read the manual to fully understand how it works (life is far too busy!) and we don't really pay much attention to it, until something starts to go wrong (Dr will fix it with a prescription!).

That tends to be the reality of modern life for a lot of people 😞!

Let's talk about FEELING GOOD 😊

We've established that good health is always your number 1 priority in life.

A natural consequence of good general health and wellbeing is **feeling good**. When you feel good, positive, and happy, your vibration rises, and life becomes much easier and that's what this whole programme is about.

Each habit will incrementally raise the vibration of your body each time you do it. You will feel good each time you do a recommended action, sometimes its subtle, sometimes it's obvious, sometimes it's exhilarating, as you'll see 😊.

There'll be a combination of physical, emotional, and psychological wellbeing benefits. The more you do them, the better it is for your general health and the better you'll feel good.

Complete Health & Wellbeing Models 1 & 2 - IMPORTANT

When it comes to health and wellbeing, most people predominantly associate it with their physical body and their mental state of mind.

Our own philosophy is that we actually have **8 specific areas of health** (YES 8!) which we all need to continually nurture for complete health and wellbeing.

We use 3 visual images (models) to help you understand how it all fits together, here are the first 2;

Model 1 ~ Your 8 Health Buckets

The image on the following page is our own model that represents the 8 areas, each area is depicted by a bucket that has a very small but continual leak at the bottom.

It's obviously metaphorical, working on the basis that each bucket holds the water that lubricates and makes each of your 8 key areas run smoothly and healthily. However, each bucket slowly leaks and will eventually drain dry if neglected.

You job is to continually pay attention and nurture all 8 areas (i.e. keep topping up with water) using the recommended actions/habits, to maintain good health and wellbeing.

If you neglect any bucket(s), a part, or parts of you will eventually be running on empty and potentially start to create health problems/issues.

Each of the recommended habits in this programme enhances at least 1 primary bucket and also enhances multiple secondary buckets.

We'll point this out within each habit, so you fully understand the combined benefit for each action/habit that we recommend.

We'll also add the '8 Health Buckets' image below to the index at the end of this manual so you can print off as a visual reminder (highly recommended) if you wish.

Let's delve further into each bucket and zone...

The Tangible Zone (these are external to a degree, and what others can see)

1. **Physical health** ~ the most obvious one, all the essential habits (1 – 11) will help you take very good care of this.
2. **Financial health** ~ we only touch on this one directly with 1 habit (habit 22). It is obviously very important to nurture and look after your finances as we all live in world where we need money to live and thrive.
3. **Vocational health** ~ this is very important indeed, yet so often neglected. It can be your occupation and/or your passion(s) related to your highest values (habit 15 will help you establish your values). Your true vocation in life is what your soul longs to do, an inner urge and therefore it has a strong connection to your spiritual health. If you are doing what truly inspires you in accordance with your highest values, that is your main spiritual path in this lifetime.

It is important that what you do as your vocation (could be main job, secondary business, or hobby) gives you fulfilment, otherwise you can end up suppressing your life away, if you are just doing it for the money. If you are not fulfilled with your main job, you need to look at moving towards a vocation (you can start it part-time) that you would love to do, which is in accordance with your highest values.

It may take some time and planning (baby steps at first) to get there, but it will fill you with energy, enthusiasm, and joy when you align this part of you (neglecting this part is why so many people are lost and unfulfilled and dread Monday mornings!). When you're in tune with your vocational health, your emotional and mental wellbeing and fulfilment, will go through the roof 😊.

The Feel-Good Zone (The most important zone, the heart ❤️ of the operation, when you nurture and balance these 2 areas, you will **feel very good** about yourself and that is the number one aim of this whole programme).

4. **Emotional health** ~ this is how you feel at any given time and is the most important bucket of all 8. Every single one of the 22 habits will enhance your emotional health and make you feel that little bit better each time you do it. Habits 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your emotional health. With practise, they will get you feeling good all the time and that's when the magic happens 😊.
5. **Mental health** ~ this is how you internally see yourself and affects your confidence, self-esteem, and self-worth. It is the second most important bucket after emotional health and positively links to all 22 habits. Similar to emotional health above, habits 12, 13, 14, 16, 17, 18, 19 & 20 are specifically designed to build your self-image and confidence and make you feel really good about yourself.

When your **emotional and mental health** are in great shape, everything else will fall into place much more easily.

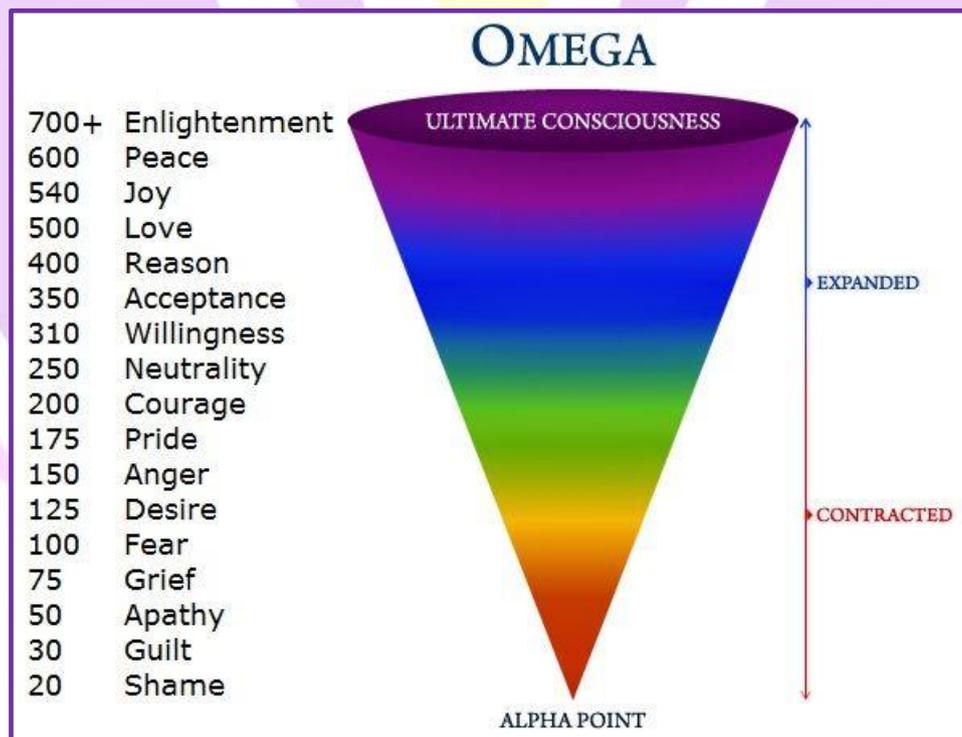

The Connecting Zone (as humans, we intuitively want and need to connect with others).

6. **Divine Sexual health** ~ this one isn't exclusively about sex with a partner, it applies to everyone and is about connecting to your divine creative power released through orgasm. It is about tapping into the glorious elixir of life and bathing in the divine life nourishing energy that creates everything in the universe. It is highly recommended to connect regularly with it (regardless of if you are in a relationship or not), habit 11 will help you fully understand and take care of this. You'll learn how it relates to the Emotional Vibration Chart (model 2) in a significant way.
7. **Social/Family health** ~ We all have a deep human need to feel wanted and accepted by other humans. Having a social circle of friends, work associates, like minded advocates and close family bonds are all important for your mental and emotional wellbeing. It is important to regularly connect and nourish these relationships to feel complete as a human being. Habit 21 will help you with this.
8. **Spiritual Health** ~ As the saying goes "for what profits a man if he gains the whole world and loses his soul?" Understanding you are a spiritual being having a human experience and acknowledging/connecting with a higher power is very important indeed for your spiritual health and your integrity as a human being.

Also...to feel genuinely fulfilled with your life, your spiritual health needs continually nurturing. Having a higher purpose/vocation (in line with your highest values) with the intention of benefitting fellow human beings and advancing humanity in some way (no matter how big or small), is nourishing for your soul and spiritual health. Taking care of your spiritual health will also help to keep you grounded and more fulfilled, habits 9, 12 – 15 and 17 - 21 will help you with this.

Model 2 ~ Emotional Vibration Chart (aka Map of Consciousness)

This chart is courtesy of the late Dr David R Hawkins MD who through extensive testing and research has mapped the range of human consciousness.

It is officially known as the 'Map of Consciousness,' however we're going to refer to it as the **Emotional Vibrational Chart** simply because that is easier to relate to in terms of health and getting you to focus on the key aspects.

It maps the 17 levels of human consciousness (each labelled as an emotion) on a scale of 1 – 1,000 which represents the levels of energetic vibration connected to the level of consciousness of each of the emotions.

You can see that the really good emotions of love, joy and peace are at the higher vibrational end of the scale and as we all know, feel really good. **That's where we all want to be!**

Conversely, fear, grief, and guilt etc, are at the lower end of the chart and don't feel so good to experience.

Important distinction...

We can all pretty much experience the whole range of emotions briefly from time to time. For example: we can be deliriously happy or really angry, these are fleeting short term emotional experiences.

However, underlying all of this, we each have an average vibration calibrating somewhere between 0 – 1,000. Dr Hawkins established that around 75% of the world's population is below 200 and only a small handful of people (less than 20) are above 600. Quite surprising!

There have been just a small number who have calibrated at the very top of the scale (enlightenment), here's 3 you may have heard of Jesus, Buddha, Krishna!

Instead of using the phrase average vibration, let's call it **resting vibration**.

The most important aspect of all ~ the higher your resting vibration, the better you naturally feel!

Now, it is quite obvious looking at the chart, if you have a higher resting vibration of say love (500) you are generally going to feel much better than if you had a resting vibration of anger (150).

This whole programme is devised to incrementally raise your vibration through all the actions/habits to continually move you up the scale.

Although on the surface you could be mistaken for thinking this is just a health and wellbeing programme, it's actually a feel-good programme as the repeated actions/habits are designed to push you up that chart so you vibrate higher and naturally feel better 😊.

The higher your vibration, the more conducive the energetic environment for the cells of your body.

Key note:

You cannot make big leaps in your resting vibration, for example: you cannot just go from say anger to love quickly, you can experience them as individual emotions in quick succession, but you have to go through each level in turn.

The chart is for your intellectual understanding, **your job is to simply focus on the recommended actions and mindset** with each habit as they will incrementally raise your vibration, slowly but surely.

And, more importantly, this isn't a quick fix, it's an incremental action programme for your lifetime (or until even better information is discovered and supersedes any aspect), hence why we want to help you install them as fixed habits.

Please burn this into your brain

It's your thoughts and corresponding feelings that are the driver with all of this as they **emit an energy field which affects everything around you.**

You attract whatever is vibrating on the level you're vibrating at, so **the higher up you get** on the chart (ideally love, joy and peace), **the better the circumstances and events you experience** and most importantly, **the better you feel!** 😊

How to Get the Most from this Habit

David and I created this programme as a 2-step process to learn each habit;

1. First step, **learning**: the information on the habit is to educate you on the importance to your health and **why** you should adopt it.
2. Second step, **doing**: you then know exactly **what** and **how** to do it, until it becomes a deeply ingrained habit.

Hopefully, you'll feel inspired to do the recommended actions until the habit becomes fixed and subsequently automatic for you 😊.

It just takes a bit of discipline first

The best definition of discipline I have heard is 'giving yourself a command and following it.'

The difference between discipline and habit is this;

Discipline is making decisions and taking actions using your **conscious mind**.

Habit is carrying out actions using your **subconscious mind** as you no longer have to think about it, you just do it.

So, once you have learned and understood the benefits of each individual habit, you just need a bit of discipline to carry them out daily until they become a fixed habit.

...and voila 😊!

Habits

We are all creatures of habit as this is how the unconscious mind operates when we repeat an action enough times.

Scientifically speaking, every single thought or action creates an electrical impulse across the neural pathways of your brain to create what are known as synapses. By repeating specific thoughts or actions you strengthen the neural pathways/synapses until they reach a point where conscious attention is no longer required. It then becomes stored in your subconscious mind and body, as a fixed habit.

If you repeat an action long enough the brain will naturally and unconsciously want to keep doing it and that is the plan!

Only 66 days needed!

There is a lot of talk about a habit becoming fixed after just 21 days, but recent scientific studies show it takes 66 days to fully ingrain a habit subconsciously.

David and I do 'earthing' (habit No 2) every single morning whatever the weather, we have done it for that long (several years) it would feel weird not doing it.

The first week or two is where the most discipline is required. After 66 days, you will have done it that many times, it will feel like the most natural thing in the world. It will be like getting dressed or brushing your teeth, you don't have to think about it, you just do it.

So, are you ready to get going?

Habit No 11 ~ Regular Orgasms

“The orgasm is a doorway to the divine, it gives the experimenter a momentary glimpse of self-realisation.”

Regular Orgasms

This one is likely to charge your perception of the 'big O' when you fully appreciate what **it really is!**

Some of the habits in this pack might take a bit of discipline to make them habitual, this one however, should be very easy indeed.

Your doorway to the divine

You're now familiar with the emotional frequency chart (right) and how everybody's resting vibration is somewhere on that chart.

...And how the majority of the population (75% - 80%) are below the 200 mark.

The orgasm gives you a momentary glimpse of what it's like at the **top of the chart!**

It's simply about connecting

It doesn't matter if you're in a relationship or 'flying solo' this one is about understanding what the orgasm really is (as explained both above and below) and regularly connecting with the beautiful divine energy of it, to experience the multiple benefits.

Not only will it give you immense natural pleasure as you know, by regularly tapping into and bathing in this energy, you'll enhance your health and wellbeing on many levels!

You might be surprised at the additional proven benefits of an orgasm!

It doesn't get better than this one 😊!!!

Let's start with the basics.

We all know that we're biologically programmed to instinctively procreate to continue the human species.

And to make sure this happens; our creator has given us a very strong impulse and desire to want to copulate with the opposite sex. This is achieved by making the whole experience very natural and pleasurable, so we generally don't need much persuasion.

And as you know, for conception to take place, the male obviously needs to ejaculate, therefore (in the vast majority of cases) you can't have conception without the male orgasm.

As every male who has had sex or who has masturbated knows, the impulse to reach orgasm is incredibly strong. This very powerful impulsive desire is what ensures the continuation of the human species.

It is actually a doorway...

The orgasm is a doorway which gives the experiencer a glimpse of self-realisation (of who you really are). At the point of orgasm, you experience a very brief window of no time and no ego, as you momentarily enter a truly blissful state (at the **top** of the chart Emotional Vibration Chart!).

For a few brief moments you engage with who you really are (a multi-dimensional, divine being) as you experience your own blissful divinity. Wisdom says the key to inner peace is completely letting go and being in the moment.

Now humans usually have a hard time doing this as our brains are so active, except during that brief window of an orgasm. At the point of orgasm, none of us have any problems with letting go and just being in that moment!

Next time you're about to climax, just observe yourself and what is happening to your attention. I guarantee you that just before and during the orgasm you won't be thinking about tomorrows to do list or about putting the washing on 😊.

I'm certain, you'll be fully present, bathing in that blissful divine energy (and that's how it should be 😊).

It is the elixir of life!

It is the ultimate natural high we can experience as humans that, like an addiction, makes us want to experience it again and again, throughout our lifetime.

The craving of sex to experience the orgasm is not actually about the other person but about your urge to self-realise. By that I mean experience the blissful state of your own divine nature.

The tantra masters say that if you could experience the orgasm for much longer instead of just a few moments, sex would become a doorway for enlightened self-realisation, rather than just a pleasure-seeking activity.

They say if you could experience a continual orgasm for 7 minutes (imagine that 😊), you would be free from the craving of sex for months.

And if you could experience it for 3 hours continuously, you would be free of the craving of sex forever!

In a nutshell, the orgasm is a very beautiful and divine experience that allows you to momentarily experience who you truly are (a powerful divine soul, temporarily having a human experience).

It is pure divinity and tapping into this beautiful divine power has multiple benefits for your health and wellbeing as I'll shortly explain.

There's a potential problem though for females!

Often through religious teachings and strict upbringings, society has damned women for thousands of years making them feel ashamed to feel pleasure through sex and orgasm. Leaving them to believe that sex is purely for conception purposes and not for pleasure.

It has made them feel ashamed of wanting to explore their sexuality and experiment with themselves, which is a perfectly natural and instinctive act.

Thankfully in modern times, women are much more liberated and aware. However, hurtful words such as Frigid, Shy, Fat or Too Old has turned a lot of women away from sex and the pleasure of the orgasm through associated feeling of shame and embarrassment.

It's mostly in the mind for women

Female experts pretty much agree that having an orgasm is 90% in the mind for women. Letting go of all that mental chatter (use the meditation and breathing habits to aid this) is pretty important for a lot of women to be in the mood for arousal.

In effect, it's about turning your brain off (letting go of mental clutter) so you can become sexually turned on and ready (giving yourself permission) to experience pleasure.

It is your God given right and your strongest impulse to want to experience orgasms, so there should never be any shame attached to it. Shame can also lead to a condition called "Sexual Anhedonia" where a person cannot feel pleasure from an orgasm.

This is why I've dedicated quite a bit of space to explain what an orgasm really is (energetically) to help you fully understand the beauty of it and why you should regularly connect with it, regardless of (upper) age, status, or shape.

There are multiple benefits (physical, emotional, mental, and spiritual), hence you are encouraged to go there as frequently as you desire.

Age, status, or shape is not a barrier

Regardless of your age, your relationship status or physical condition, I urge you to connect or reconnect with your body and its divine right to experience beautiful and blissful orgasms.

If for any reason you have any reservations due to conditioning from your upbringing or religious beliefs, I'm giving you permission right now to release those conditioning thoughts immediately and start reconnecting with your divinity.

I say there is a global epidemic of under-orgasmic women and want to widely educate and reverse this epidemic!

So, let's change the tone and talk about the benefits...

Would you like to look 7 years younger?

You'll love this (I hope)!

Based on a scientific study, Dr Oz says that 200 orgasms a year can make you appear 7 years younger!

I've been telling women for a few years now, that you can buy all the expensive face creams you want, but it's an inside job.

In other words, your outside appearance is a reflection of what's going on inside you, from the foods you eat and the general energies (via orgasm, meditation, stress etc) that you stir up.

Regular orgasms bathe you in divine energy and put a glint in your eye 😊.

Apart from the obvious feeling of exhilarating pleasure, orgasms also reduce stress, lower anxiety/depression, relieve pain and make you a nicer person. You can also utilise the divine energy to rejuvenate your health and vitality on several levels (will explain how shortly).

There isn't a downside, apart from maybe having to buy lots of batteries 😊.

Additional female advantage

Did you know the female vagina has around 8,000 nerve endings whilst the penis and scrotum have only 3,000!

So, ladies get the lion's share of nerve endings and have the capacity for more pleasure, yet 96% of men are happy with their orgasms and the majority masturbate without a care in the world.

Conversely, a fair proportion of women are not fully embracing their divine power and experiencing regular beautiful orgasms.

If you're under-orgasmic, regardless of whether you're in a relationship or not, it's down to you to start reconnecting.

5 foods for better erections

Nature can be very beneficial for stimulating erections...

1. **Garlic** ~ Allicin in garlic helps keep your blood vessels and arteries clean which helps improve blood flow to the penis.
2. **Ginseng** ~ During a double-blind placebo-controlled study, they discovered men suffering from performance issues reported bigger and stronger erections after taking ginseng.
3. **Ginkgo leaves** ~ a University of California study found that ginkgo leaves have a similar effect to garlic in improving the blood flow to the penis by expanding blood vessels.
4. **Ginger** ~ a study at Aga Khan University Medical College found that ginger has a similar effect to both garlic and ginkgo leaves in expanding blood vessels to help blood flow faster to the penis.
5. **Green Tea** ~ it contains an ingredient known as EGCG which can be particularly good for strengthening the blood vessels in the penis.

Notice how all 5 begin with a 'G'! To help remember them, perhaps think natural foods beginning with G means **G**reat big penis 😊!

Increasing the quality of your orgasm

Your breathing can make a big difference to the intensity and quality of your orgasm.

You'll notice generally that your breathing changes depending what type of activity you are doing. For example: if you're relaxed your breathing will be quite slow, if you're anxious your heart will beat faster, and you'll breathe faster.

As you become more sexually aroused and are getting close to orgasm, your breathing rate will automatically speed up.

When you're on the cusp of the big 'O', pay attention to your breathing and slow it right down by taking long slow nasal breaths. The slowness of breath will open deeper and deeper vistas of pleasure, as the orgasm washes over you.

Try the Egyptian practise of 'ankhing' to utilise your powerful divine sexual energy

The Egyptians believed that the sexual energy from an orgasm was the key to eternal life (they understood it as the divine life force) and believed that we only had a finite amount of this energy.

Whereas the majority of people just let go at the point of orgasm and never give a second thought as to where that energy goes, the Egyptians devised a technique to utilise this sexual energy.

If you pay conscious attention to what happens to your sexual energy at the point of orgasm, you'll notice it travels up your spine and dissipates out the top of your head.

The Egyptians believed that if this energy was controlled and not just left to dissipate, you can bathe your body in it and use it to rejuvenate every cell in your body.

They were looking for ways to harness this energy and ultimately achieve eternal life through this process. We'll just concentrate on using it for rejuvenating your cells for health and wellbeing purposes. Are you ready?

The 7 'ankhing' steps

Do whatever you need to bring yourself close to orgasm.

1. The moment you feel the sexual energy about to rise up your spine, take a very deep nasal breath, filling your lungs about 90% full, then hold it.
2. Allow the sexual energy of the orgasm to come up your spine. But at the moment it reaches the fifth chakra (located at the base of your throat), with your willpower you must turn the flow of sexual energy 90 degrees out the back of the body.

It will then automatically continue inside the *ankh* tube (see symbol above). It will slowly turn until it passes exactly through the eighth chakra (located one hand-length above the head) at 90 degrees to the vertical. It will then continue to curve around until it returns to the fifth chakra, where it began, only this time in the front of the body.

Even if you don't understand what was just said, it will happen automatically if you get it started out the back of the body at the fifth chakra, and it will automatically come back around to the front of the body and reconnect at the fifth chakra. You just have to make it turn 90 degrees so that it begins.

It will often slow down as it approaches its point of origin, the fifth chakra. When it approaches the fifth chakra from the front of the body, there is sometimes a jolt as it reconnects with this chakra again. All this takes place while you are holding your first breath.

3. The instant the sexual energy reconnects with its source, the fifth chakra, take in the full breath. You had filled your lungs only 90% full, so now you fill your lungs as completely as you can.
4. Now exhale very, very slowly. The sexual energy will continue on around the *ankh* channel as long as you are exhaling. When you reach the bottom of this breath, you will continue to breathe very deeply, but a change happens here.

5. Continue to breathe deeply until you feel the relaxation begin to spread throughout your body. Then relax your breath to your normal rate. Feel every cell becoming rejuvenated by this life-force energy. Let this energy reach down into the deepest physical levels of your body structure even past the cellular level. Feel how this beautiful energy surrounds your very being and brings health to your body, mind, and heart.
6. Once the relaxation begins, slow your breath down to a normal shallow breathing.
7. If possible, allow yourself to completely relax or even sleep for a while afterward.

It might seem strange at first. You're simply using your imagination and will to direct the divine energy out of your upper back through the imaginary ankh tube.

This will take a bit of practise, but the more you do, the more divine healing energy will flow through you to rejuvenate you mentally, emotionally, and physically.

Have a go and enjoy the experience. If for any reason this practise does not feel right, stop, and return to normal.

The Rules for Being Human

1. You will receive a body.

You may like it or hate it, but it will be yours for life.

2. You will learn lessons.

Life is a constant learning experience and everyday provides opportunities to learn lessons.

3. There are no mistakes, only lessons.

Your development towards wisdom is a process of experimentation, trial, and error. Compassion is the remedy for harsh judgement of ourselves and others. Forgiveness is not only divine, it's also 'the act of erasing an emotional debt'.

4. A lesson is repeated until learned.

A lesson will be presented to you in various forms until you have learned it. What manifests as problems, challenges, irritations, and frustrations are more lessons. They will repeat until you learn them, then you go on to the next lesson. To blame anyone or anything else for your misfortune is an escape and a denial; only you are responsible for you and what happens to you.

5. Learning lessons does not end.

While you are alive, there are always lessons to be learned. Surrender to the rhythm of life, don't struggle against it. Be humble enough to always acknowledge your weaknesses and be flexible enough to adapt from what you be accustomed to.

6. "There" is no better than "here."

When your "there" has become a "here", you will simply obtain another "there" that will again look better than "here."

7. Others are merely mirrors of you.

You cannot love or hate something about another person unless it reflects something you love or hate about yourself. Be tolerant; accept others as they are and strive for clarity and self-awareness. Strive to truly understand and have an objective perception of your own self, your thoughts, and feelings.

8. What you make of your life is up to you.

You have all the tools and resources you need. What you do with them is up to you. Take responsibility for yourself. Learn to let go when you cannot change things. Don't get angry about things.

9. Life is exactly what you think it is.

You create a life that matches your beliefs and expectations. You get what you think about and dwell on most of the time, it is a precise universal law called the 'Law of Attraction'.

10. Your answers lie inside you.

The answers to life's questions lie inside you. All you need to do is trust your instincts and your innermost feelings, whether you hear them as a little voice or a flash of inspiration.

11. You will likely forget all this...but you can remember it whenever you want 😊.
