What is Numerology?

Numerology is the universal language and science of numbers which is said to have been created by Pythagoras, the Greek mystic and mathematician, more than 2,500 years ago.

It is based on the premise that **you are a timeless soul** who has lived, and will continue to live, many lives for the purpose of evolving your soul. In your quest for self-mastery, you choose a pre-set agenda each time, consisting of the specific lessons you'd like to learn and the destiny you endeavour to fulfil, whilst you're here—**all the details of which are found in your 'numbers'**.

Each character in your date of birth and full name (n.b. each letter in your name converts to a number between 1 – 9 with numerology) represents a vibrational frequency which corresponds to specific traits and abilities (both positive and negative) you possess, that make you who you are.

Some of your numbers have a greater influence than others but you are essentially a blend of all the corresponding vibrations contained in specific character groups plus the individual characters, within your full name and date of birth. There's huge depth to numerology, how deep you wish to go to discover the real you, is entirely in your hands!

To recap.... **you have prechosen your 'numbers'** prior to this incarnation to provide the necessary tools and experiences to assist you in your soul's quest in this lifetime. In other words:

Your name and date of birth are no accident...you chose them!

But surely my parents chose my name I hear you ask? They did officially name you, but what really happened is you quietly influenced your parents from the higher vibrational spiritual realm.

So, encoded in your name and date of birth is your soul's blueprint for this lifetime that was set-in motion long before you entered this world. They reveal your deepest motivators, the innate gifts you were born with, the lessons you're meant to learn in this lifetime and much more.

Numerology is the key to helping you decode this powerful information that you have forgotten, it will help you see the bigger picture and discover the real you!

Why don't you remember any of this?

Because you incarnated for the purpose of evolving your soul, you had your memory wiped prior to birth, this is often referred to as the 'vale of amnesia.' If you carried all your soul's wisdom through each incarnation, you'd already be wise and wouldn't benefit from the lessons and growth your soul is seeking through each human experience.

Planet earth is effectively a school that you have chosen to come to with eagerness and excitement because of the wonderful opportunity it offers you (with its dualistic setting) for evolving your soul through life lessons and experiences.

Unfortunately, because your memory was wiped prior to birth and nobody really explained this stuff to you, you're likely to be none the wiser, until now!

Fortunately, through Numerology and similar spiritual disciplines you can begin to understand your true character and purpose in this lifetime and the specific lessons you came here to learn 😊.

Accompanying videos

We've attempted to explain in this guidebook how each of the 7 elements is worked out but please also watch the accompanying videos on the online course for a fuller understanding.

Mistakes

You may notice the odd grammatical mistake in the written traits/characteristics on a few of the charts. Please excuse this, a lot of the information is channelled through Stephen and he just lets it flow onto the paper as it comes through (he doesn't even notice in that state), but we've kept them in for authenticity, so go easy on him 😊.

There are also additional videos covering the basics of numerology on our you tube channel, which you can find [here](#).

The Energetic Meaning of Each Number

In a nutshell, there are only 9 numbers to deal with in Numerology, 1, 2, 3, 4, 5, 6, 7, 8 & 9 that's it 😊 you don't need to know any others, not even 0 as it has no effect!

The reason is that every number in existence, no matter how big, reduces down to a number between 1 – 9, we'll show you how this works very shortly.

The only exception to reducing down is occasionally (we'll point out when), when we have a sequence of the same numbers such as 11, 22, 33 etc. These are referred to as master numbers as they carry additional energy, you'll get the gist as we go through it.

Reducing down, simply means adding all the digits in a number together (and if the total is more than 9, then add all the digits of the total together) until you have a single digit between 1 - 9, here are some examples;

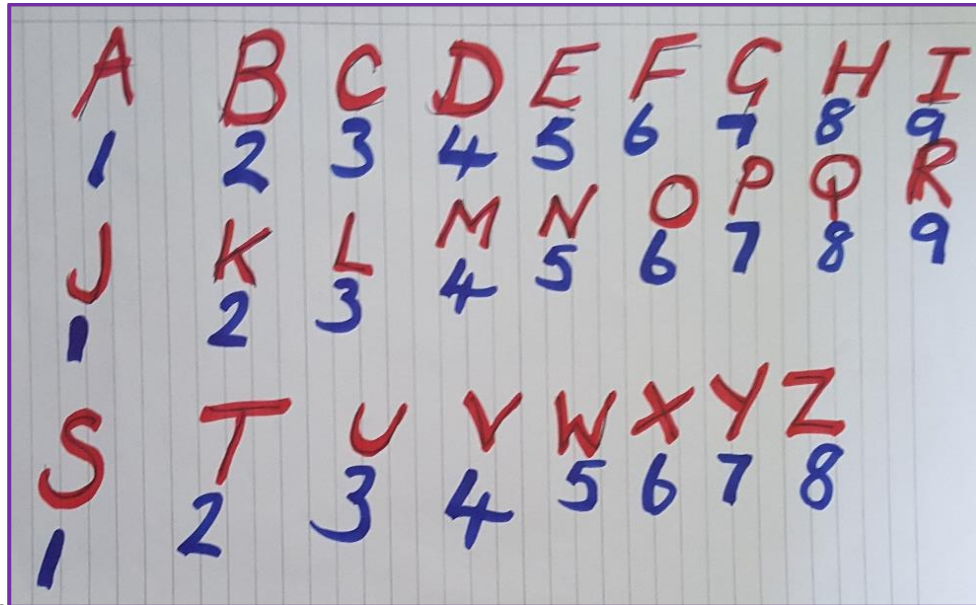

the number **31** would reduce to **4** ($3 + 1 = 4$).

the number **248** would reduce to **5** ($2 + 4 + 8 = 14$, then $1 + 4 = 5$).

the number **1987** would reduce to **7** ($1 + 9 + 8 + 7 = 25$, then $2 + 5 = 7$),

The same applies to letters, in western numerology all 26 letters correspond to a number between 1 – 9 as follows;

So, every number and letter correspond to an underlying energetic frequency between 1 – 9 and once you know how to interpret these 9 basic frequencies, you're effectively a mini numerologist 😊!

Here's the general energetic meaning of the numbers 1 – 9;

- 1 ~ Individualistic, Independent**
- 2 ~ Cooperation, Peacemaker**
- 3 ~ Creative, Expressive**
- 4 ~ Worker, Process, Foundations**
- 5 ~ Freedom, Adventure**
- 6 ~ Nurturer, Caretaker**
- 7 ~ Truth-seeker, Contemplative**
- 8 ~ Power, Abundance, Finance**
- 9 ~ Humanitarian, Global Awareness**

We've kept the traits very generic for simplicity, each number has a lot of depth with both positive and negative traits.

The Numerology 1 – 9 Cycle

Everything in the universe vibrates and moves in cycles. This includes all humans who live in continual 9-year cycles, whether they know it or not.

In addition to the above general meanings of each number, now we'll show you how the numbers 1 – 9 are sequentially connected and reflect a complete journey or a cycle, as follows...

- 1. Ignition** ~ the birth of a new journey, full of energy and ambition.

2. **Feeling Life** ~ emotional seesaw (duality), relating to another.
3. **Expressing Life** ~ adds inspiration and expression to create new ideas.
4. **Erecting the Structure** ~ down to earth, bringing ideas into reality.
5. **Exploring the structure** ~ a quest for knowledge, experience and discovery.
6. **Vision of Perfection** ~ seeking fulfilment through harmony and perfection.
7. **Realising Perfection** ~ mystical transformation, seeks to heal life.
8. **Perfection Reworked** ~ the strategist and organiser, rework and rebuild.
9. **Completing the cycle** ~ dispensing the knowledge/wisdom of the journey.

If you know what year you are in, you can use this information to your advantage. E.g. as we launch this course (2023) both of us are in a **4 year** (erecting the structure) so the energy is ideal for us as we're building (erecting) the foundations and platforms to put out the information we want others to benefit from over the coming years.

How to work out what year of the 9-year cycle you are currently in;

You substitute the **current year** into your birthdate and reduce to a single figure. E.g. Stephen was born on 30th December 1964, so here's how we work out what his current year is;

Current year birthday: **30th December 2023**

Add together and total up: **3+0+1+2+2+0+2+3 = 13**

Reduce total (if above 9): **1 + 3 = 4**

So, he's in a **4 year** in 2023 (erecting the structure), next year (2024) he'll be in a **5 year** and so on.
