REVEALING THE HIDDEN POWER OF NUMBERS

www.KT-Numerology.co.uk

f /StephenKirkbrideNumerology | @KT_Numerology | @KT_Numerology | Know Thyself Numerology

Numerology is the universal language and science of numbers which is said to have been created by Pythagoras, the Greek mystic and mathematician, more than 2,500 years ago.

It is based on the premise that **you are a timeless soul** who has lived, and will continue to live, many lives for the purpose of wisdom and growth. In your quest for self-mastery, you choose a pre-set agenda each time, consisting of the specific lessons you'd like to learn and the destiny you endeavour to fulfil, whilst you're here—**all the details of which are found in your 'numbers'**.

Each character in your date of birth and full name (n.b. each letter in your name converts to a number between 1 – 9 with numerology) represents a vibrational frequency which corresponds to specific traits and abilities (both positive and negative) you possess, that make you who you are.

Some of your numbers have a greater influence than others but you are essentially a blend of all the corresponding vibrations contained in specific character groups plus the individual characters, within your full name and date of birth. There's huge depth to numerology, how deep you wish to go to discover the real you, is entirely in your hands!

To recap.... **you have prechosen your 'numbers'** prior to this incarnation to provide the necessary tools and experiences to assist you in your soul's quest in this lifetime. In other words:

Your name and date of birth are no accident...you chose them!

But surely my parents chose my name I hear you ask? They did officially name you, but what really happened is you quietly whispered your name to your parents from the spiritual realm.

So, encoded in your name and date of birth is your soul's blueprint for this lifetime that was set-in motion long before you entered this world. They reveal your deepest motivators, the innate gifts you were born with, the lessons you're meant to learn in this lifetime and much more.

Numerology is the key to helping you decode this powerful information that you have forgotten, it will help you see the bigger picture and discover the real you!

Why don't you remember any of this?

Because you incarnated for the purpose of wisdom and growth for your soul, you had your memory wiped at birth, this is often referred to as the 'vale of amnesia.' If you carried all your soul's wisdom through each incarnation, you'd already be wise and wouldn't benefit from the lessons and growth your soul is seeking through each human experience.

Planet earth is effectively a school that you have chosen to come to with eagerness and excitement because of the wonderful opportunity it offers you for developing your soul through experiences.

Unfortunately, because your memory was wiped at birth and nobody really explained this stuff to you, you're likely to be none the wiser, until now!

Fortunately, through Numerology and similar spiritual disciplines you can begin to understand your true character and purpose in this lifetime and the specific lessons you came here to learn 😊.

1. Your Life Path Number

All you do is add together all the digits in your date of birth and keep adding the digits in the total (known as reducing down) until you have a single figure. The only exception to reducing down the total, is if you get 11, 22 or 33.

E.g.1; let's use 05th October 1969:

i) Add all the digits... $0+5+1+0+1+9+6+9 = 31$

ii) Now add $3+1 = 4$

A person born on 5th Oct 1969 is a **life path 4**.

E.g.2; 07th Oct 1992:

i) Add all the digits... $0+7+1+0+1+9+9+2 = 29$

ii) Now add $2+9 = 11$ (not reduced any further)

A person born on 7th Oct 1992 is a **life path 11**.

2. Your Birthday Number

Your birthday is simply the day of the month you were born, reduced to a single figure (1 – 9). E.g:

If you were born on 5th of the month it would be a **5**-birthday number

If you were born on 16th of the month it would be a **7** (1 + 6) birthday number

If you were born on 28th of the month it would be a **1** ($2 + 8 = 10 \ggg 1 + 0 = 1$)

3. Your Expression (Name) Number

Your expression number is converting each letter of your full name to a single digit between 1 – 9 (using the chart below) and then totalling up all the digits and then reducing the total to a single number.

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
1	2	3	4	5	6	7	8	9	1	2	3	4	5	6	7	8	9	1	2	3	4	5	6	7	8

E.g; Name: DAVID PAUL KING

As numbers: 41494 7133 2957 = **59** >>> $5 + 9 = 14$ >>> $1 + 4 = 5$
(22) + (14) + (23)

So, David Paul King has an expression (name) number of 5.

4. Your Arrows

An arrow is depicted when 3 numbers or blank spaces line up vertically, horizontally or diagonally when your date of birth is placed into the arrows grid.

5. Your Feng Shui Chart

You place your date of birth figures into the feng shui grid, and check to see which of the 5 elements you are naturally connected to and which, if any, are missing.

6. Your Harmonising Colours

You use your birthday number and refer to the corresponding colour chart.

7. Your Love & Romance Matches

You use your life path number and refer to the corresponding love/romance chart.
