Your Life Using Numerology'*

Introduction

As a highly spiritual person, one of my main purposes in this lifetime is to help raise the vibrational frequency of the planet by helping to raise the individual vibrational frequency of everybody I meet. Numerology is one of several disciplines I practice, through which I can help to do this.

As you will already know, encoded in your date of birth and name is a myriad of numbers and patterns which all have corresponding vibrations. Your character and the blue print of your life is essentially a blend of all these encoded vibrations.

The key to numerology is the awareness of what your numbers (vibrations) are and then making subtle harmonious adjustments to naturally raise your vibration and make life flow more effortlessly.

Abundance/Money...once your energy becomes more in tune with the frequency of abundance, you'll start to attract more of it and that's what we're going to focus on in this report.

It's actually very simple and I hope you put it to good use 😊!

With love & blessings

Understanding the Frequency of Abundance

Before I give you the simple steps, I just want to give you a little background/recap so you understand why something so simple, actually works.

We know from science that **everything** in the universe is just energy vibrating at a certain frequency and to measure and quantify any frequency, we use numbers. In other words, all numbers and letters are representations of vibrational energy.

In numerology, all numbers, no matter how large, always reduce down to a single digit between 1 – 9. The general vibrational meaning of the numbers from 1 – 9, are as follows:

- 1 ~ Individualistic/Independent
- 2 ~ Cooperative/Peace
- 3 ~ Creative/Expression
- 4 ~ Practical/Foundations
- 5 ~ Freedom/Dynamic/Adventure
- 6 ~ Care/Nurture
- 7 ~ Truth/Spirit
- 8 ~ Money/Abundance**
- 9 ~ Humanitarian/Compassion

To align yourself to the vibration of money and abundance, it's all about the number 8 as that carries the corresponding vibration!

5 Steps

I will now take you through 5 recommended steps that I personally use to attract more abundance into my life. You may not want to use all 5 depending on your circumstances, but I highly recommend you do at least step 1.

All 5 steps are pretty simple and take minutes to implement, some have elements that are ongoing but its simply about developing specific habits which are conducive to bringing you more abundance.

Mindset

Your mindset has a huge impact on how much money flows through your life and this is very important to understand. The 5 steps will help increase the abundance vibration around you but it's your **thoughts** and **feelings** around money that will enhance this energy!

Think of the corresponding mindset as the amplifier, the 5 steps will set good foundations for you around money and the right mindset will amplify this energy in your favour.

Attracting More Money & Abundance ~ Step 1.

All you need to do for step 1 is take a piece of paper and write the figure **8** on it and place it in your purse/wallet with the expectation that money will easily flow to you, then relax and start allowing it to happen.

Alternatively, cut out this square with the 8 on it and use it instead.....

Expectation

The expectation of receiving more money/abundance is **important** as your thoughts are very powerful indeed. When you place the piece of paper in your purse/wallet with the expectation of receiving money abundance you magnify the vibrational energy attached to it. More on this later on.

If you want to really understand the power of your thoughts/intentions, I highly recommend you look up the work of the Japanese scientist Dr Emoto and his water experiment. He proved beyond doubt that thoughts affect the crystalline structure of water. Harmonious thoughts raise the vibration of water whilst negative thoughts do the opposite.

Your thoughts carry a lot of power (more than you realise) and interact with everything around you, choose them wisely in line with what you wish to receive.

Here's what the 8 in my wallet looks like;

David and I always carry a figure 8 in our wallets, mine is shown above. If you see us anywhere, please feel free to put us on the spot by requesting to see it.

Now onto step 2...

Attracting More Money & Abundance ~ Step 2.

This one is very similar to step 1 except you take another piece of paper with the figure 8 on it and place it in your mobile phone.

You may choose not to do this one depending on how you use your mobile phone, up to you.

I recommend it though, as we carry our phones with us everywhere we go these days and have a vast amount of interaction and communication going through it (e.g. business, clients, banking, friends, family, emails etc.), so it makes sense to amplify the abundance/money vibration around it too.

You simply place the piece of paper with the 8 on it, somewhere in the casing if you have one or inside/on the back cover, wherever you feel appropriate.

Here's a picture of mine inside the back of the casing:

Let's go to step 3...

Attracting More Money & Abundance ~ Step 3.

Step 3 is simply about how you fold the notes in your purse/wallet.

- i) Take each note (fig 1).
- ii) Always fold them in half with the picture of the queen on the inside (fig 2).
- iii) Fold them individually before you stack them together on top of the other notes (fig 3), don't fold in half as a bunch.

Fig 1 ~ ready to fold

Fig 2 ~ hide the queen

Fig 3 ~ fold Individually & stack

N.B. Hiding the queen: If the queen is showing on the outside it will go back to the state once you've spent it, if you fold it with the queen on the inside it will come back to you!

Step 4....

Attracting More Money & Abundance ~ Step 4.

Put some foreign denomination notes and coins in your purse or wallet, this will help to attract foreign currency to you too.

This is of course if you're open to receiving foreign currency? If you have any type of business with an online presence, it would make absolute sense to do this as you never know where potential business will come from.

The universe works in mysterious ways, this step energises more avenues through which to bring more abundance to you.

Attracting More Money & Abundance ~ Step 5.

Put a regular bank note on your mirror at home, the higher the denomination the better. Put them on multiple mirrors if feasible (as long as your family don't think you're mad and the kids start nicking them to buy goodies 😊).

Did you know mirrors are energetic portals that amplify and reflect the energy that goes into them? Would be wise to use it to your advantage.

Feng Shui also uses mirrors as they are recognised as wealth magnets and help the energy to flow.

Crystals such as citrine and pyrite are also associated with bringing more abundance.

Abundance Mindset

The universal principal when it comes to money; **'how you think and feel about money, dictates how much of it you get!'**

In other words, when you change the way you think and feel about money, the amount of money in your life will change accordingly.

The kicker is...the better you feel about money, the more you attract to you 😊.

We already know everything in the universe is just energy which obviously means money is just energy too.

Conversely, worrying about money and paying the bills is actually creating the opposite effect as the universe picks up on the corresponding negative/anxious energy around this and responds with a limited supply, as that's what you are energetically asking for. Let's face it, it's not easy being human as its counter-intuitive, you end up getting what you don't want!

So, the more we align our mindset to the vibrational wavelength of money and prosperity, the easier it flows to us. Hence, we're using every numerological trick in the book to amplify the wavelength, but the biggest amplifier of all is your thoughts and corresponding feelings around money, so let's get everything working for your benefit.

The most important tip by a mile that I can give you in this report is the following...

The fastest and best way to attract more money is to feel good around it at all times.

Please burn that into your brain!

We live in an energetic universe where energy attracts energy and when you feel good and prosperous around money, you're sending out the vibration to attract lots more. That's how it works with everything you desire.

Real life example

Have you ever seen a sales person or business person making loads of sales and money and getting really excited about how much they're making? They think they're getting excited because they're making loads of money, the truth is actually the reverse (once they have initial momentum), they're making more money because they're getting excited (feeling good) about it, so the universe sends them more.

The excitement and prosperity vibration they're projecting out to the universe because they're excited and making money is the vibration that is attracting even them to them.

It's a simple universal law.

Gratitude

Another way to amplify the good energy around money and abundance is to be grateful for every bit of money that comes your way. Just say a genuine heart felt thank you to the universe every time you receive money from wherever.

The energy around sincere gratitude aligns very nicely with attracting further abundance into your life.

Try this ~ when you're in a retail outlet and you enquire as to the cost of something, regardless of what price you're given, respond with ***"Is this all, what a bargain!"***

Of course, we all want to pay as little as possible within reason, but just saying these words will make you feel good and automatically send a corresponding message to the universe of gratitude for the good value you are about to get.

Rather than coming from a scarcity and lack mindset trying to pay as little as possible (which we all generally are), this simple shift in language and mindset will make you feel good when spending more and open the energetic gateways for the universe to send you more.

Being grateful for what you are receiving and having a bit of fun (i.e. feel good) every time you part with money is a very good way to go through life, the universe will do the rest 😊.

Summary

Here's a quick recap;

1. Put an '8' in your purse or wallet.
2. Put an '8' on/in your phone and around any other object (computer, work vehicle, shop) you use for bringing in money.
3. Fold your notes in half individually and stack, always hiding the queen.
4. Put some foreign currency in your purse/wallet if you want to attract funds from overseas.
5. Put bank notes on mirrors around your house and consider having crystals such as citrine and pyrite to amplify the wealth energy.
6. Develop an abundance mindset and an attitude of gratitude around money.

7. Most importantly, always have fun and feel good around money 😊

Final Word

Thank you for taking the time and effort to read through the information.

Please don't underestimate the simplicity of these 5 steps, it will only take you a few minutes to carry them out and amplify the abundance frequency around you.

Remember to expect abundance as you do it and let the universe weave its magic.

I sincerely wish you lots of future abundance 😊.

Finally, I wish you the very best of health, wealth and happiness with your life's journey and if our paths cross again in the future, I very much look forward to engaging with you.

Love & warmest wishes

Stephen
